Education

Montessori High School | 98

Jun 2019 - Oct 2025

10th (X) | Andhra Pradesh Board of Secondary Education (SSC)

Sri Chaitanya Junior College, Kurnool | 82

Jul 2020 - Oct 2025

Intermediate | Andhra Pradesh Board of Intermediate Education (BIEAP)

kurnool Andhra Pradesh India 518001

(GPCET) G Pullaiah College of Engineering and Technology | 8.02

Jul 2022 - Present

Bachelor of Technology (BTech) | Computer Science & Engineering - Artificial Intelligence (CSKurnool Andhra Pradesh India 518001 -AI)

Course Work: Artificial Intelligence

Skills

Programming Languages: Python, Java, c, MySQL

Web Development: HTML5, CSS, JavaScript, Flask, Streamlit

Libraries & Tools: Pandas, NumPy, Matplotlib, OpenCV, MediaPipe, PyAutoGUI, Node.js, Docker, Jenkins, GitHub Actions

Concepts: AI/ML, DSA, OOPS, MongoDB, DevOps

Soft Skills: Communication, Team Work, Creativity, Time Management

Projects

[Smart AirCursor](#)

AirCursor-AI is an innovative AI-powered hand gesture recognition project that transforms finger movements into a virtual cursor, offering an intuitive and futuristic way to interact with digital interfaces. By using computer vision technologies like MediaPipe and OpenCV, this project allows users to control a cursor and perform actions using only their hand gestures—no physical mouse or keyboard required.

Technologies: JavaScript, Python, CSS, HTML5, TensorFlow

[BP store](#)

E-commerce Frontend for Banana Powder Products

A modern and responsive e-commerce frontend for Banana Powder products, featuring **dynamic product listings**, **interactive modals**, **scroll-reveal animations**, and a **lightweight Python Flask backend** for handling contact form submissions.

Technologies: HTML5, JavaScript, CSS, Python

[Smart sorting AI](#)

Jul 2025

The smart sorting AI for sorting the rotten and fresh fruits by analyzing the image of an fruit. Developed a ML model using TensorFlow and Flask for real-time sorting, enabling potential automation in food quality control systems. The model was trained using a labeled dataset of fresh and rotten fruits/vegetables with the final layers fine-tuned for binary classification. Data augmentation was used to improve generalization and prevent overfitting.

Technologies: HTML5, Python, Flask, TensorFlow

[AI-Driven Anomaly Detection and Self-Healing in CI/CD Pipelines.](#)

Developing a **CI/CD pipeline** integrated with **AI/ML** to **automatically detect** and **remediate failures** in software build and deployment stages. Implemented using Jenkins, Docker, Kubernetes, and TensorFlow to enable predictive anomaly detection and self-healing automation.

Technologies: Jenkins, Docker, Python, TensorFlow, Flask, GitLab, GitHub

Experience

GeeksforGeeks

Jul 2024 - Jul 2025

Campus Ambassador

kurnool Andhra Pradesh

A campus mantri in GFG about promoting a coding cultures and foresting a vibrant tech community. committed to enhancing student learning and engagement with strong proficiency in python and web technologies.

Rooman Technologies

May 2025 - Jul 2025

AI Data Quality Analyst.

remote

Ensured the accuracy, consistency, and completeness of datasets used in AI and machine learning projects. Performed **data profiling**, **anomaly detection**, **text data validation**, and **data consistency checks** for structured and unstructured data. Built a **data quality dashboard** and conducted **image data quality assessments** to support model readiness and maintain high data quality standards.

Smart Internz

May 2025 - Jul 2025

Artificial Intelligence Intern

remote

- I have got a best experience in this internship that made me to motivation to make a real time projects and solve the complex AI problems.
- I made a project **Smart Sorting to identify the rotten Fruits**.

Certifications

Python at prepinsta

Aug 2024 - Jan 2025

Completed a comprehensive course covering Python fundamentals and practical applications. Topics included data types, control structures, functions, object-oriented programming, file handling, and basic data analysis. Gained hands-on experience through projects involving scripting, automation, and problem-solving

[DSA at smart interviews](#)

Sep 2024 - Jul 2025

Completed a basic course on Data Structures and Algorithms through Smart Interviews

Languages

Telugu, English, Hindi, Kannada

Hobbies

Playing Badminton and cricket, Stock Analysis
